

Lattice Gauge Theory Simulations Beyond the Standard Model of Particle Physics

Lattice Gauge Theory, Particle Phenomenology, and what lies between

JUNE 22-26, 2015

Tel Aviv University, Tel Aviv, Israel

Organizers:

Benjamin Svetitsky, Tel Aviv University, Israel
Maria Paola Lombardo, INFN, Italy
Kari Rummukainen, University of Helsinki, Finland
Tomer Volansky, Tel Aviv University, Israel

Local organizing committee:

Benjamin Svetitsky, Tel Aviv University, Israel
Yigal Shamir, Tel Aviv University, Israel

(in alphabetical order)

Confirmed Invited Speakers:

Georg Bergner (Universität Bern, Switzerland)
Luigi Del Debbio (University of Edinburgh, UK)
Gabriele Ferretti (Chalmers University of Technology, Sweden)
Maarten Golterman (San Francisco State University, USA)
Anna Hasenfratz (University of Colorado, USA)
Etsuko Itou (KEK, Japan)
Francesco Knechtli (University of Wuppertal, Germany)
Julius Kuti (University of California, San Diego, USA)
Kohtaroh Miura (Aix-Marseille University, France)
Ethan Neil (University of Colorado, USA)
Elisabetta Pallante (Rijksuniversiteit Groningen, The Netherlands)
Gilad Perez (Weizmann Institute of Science, Israel)
Claudio Pica (University of Southern Denmark)
Francesco Sannino (University of Southern Denmark)
Javier Serra (University of Padova, Italy)
Kimmo Tuominen (University of Helsinki, Finland)
Oliver Witzel (University of Edinburgh, UK)
